Sales Team

To obtain information about Werfen users and their roles in relation to an Account, an informative account-level table in the new custom object **Sales Team** is required to enable this relationship through the following fields:

- **Account** - Master-Detail Relationship to Account
- **Business Unit** - Picklist
- **Business Line** - Dependent Picklist (depends on Business Unit)
- **Sales Rep** - User Lookup
- **App Specialist** - User Lookup
- **Clinical Specialist** - User Lookup
- **Product Manager** - User Lookup
- **Field Service Engineer** - User Lookup
- **External Id** - Text, Unique and External Id (used to prevent duplicates)
- **RecordType** - Business Line Team

SAP Integration via MuleSoft & Technical Requirements

To facilitate the integration of this object with SAP via MuleSoft, the integration will provide a specific SAP external ID for the users. This external ID will be housed within the standard **User** object.

- *Please ensure that a custom **SAP External Id** field (configured as Unique/External Id) is created on the **User** object to properly map and support this integration.*

There cannot be more than one record for the same account and business line, but we don't need a validation rule to **prevent duplicate records**. We use the **External ID** field to prevent duplicates and a trigger-flow to automatically populate the field with the value of `Account + Business Line`.

Additionally, we will have a validation rule that prevents modification of the Account and Business Line fields.

VISIBILITY: We don't see any need for restrictions. These fields should be available to everyone

BU	BU name	BL	Sales Rep	App Specialist	Product Manager	Clinical Specialist	Field Service Engineer	Other roles?
1	Blood Gas	11 - Gem Premier						IT Solutions, Corp & Strat Account Directors, Reg Sales Mgrs(RASM, Automation), Clinical Information Specialists(CIS, Automation), Clinical (BU) Specialists, Medical Science Laisons(MSL)
1	Blood Gas	12 - Gem Immuno						
1	Blood Gas	13 - Avoximeter						
1	Blood Gas	19 - Others						
2	Hemostasis	need to add the Business Lines						
5	Autoimmunity	need to add the Business Lines						
6	Serology	need to add the Business Lines						
7	PBM	need to add the Business Lines						
8	WBH	need to add the Business Lines						
U	Transplant	need to add the Business Lines		**THIS COMES FROM SAP**				
T	Transfusion	need to add the Business Lines		**WE WILL ANALYZE HOW IT'S ORGANIZED IN SAP => IT/Accenture (there are differences across affiliates)**				
Z	Others	ZSY - HITS						
Z	Others	Z31 - Clinical Chemistry		**SAP USES DIFFERENT TABLES / LOGICS DEPENDING ON THE AFFILIATE**				
Z	Others	ZC2 - Hemostasis POC						
Z	Others	ZI1 - Cytogenetics		**ACCENTURE WILL REVIEW DOCUMENT SENT BY YANNICK and DISCUSS IT WITH IT/JOSEP**				
Z	Others	ZI2 - Molecular Genetics						
Z	Others	ZI3 - Applied Science		Accenture: see next tab to understand how we are organized in terms of territory				
Z	Others	ZI4 - Immunology
